Title: Terms of Service for Smart Esek (Internal Automation)

Content:

Last Updated: February 9, 2026

1. Acceptance of Terms By using the Smart Esek automation tools, you agree to comply with internal business guidelines and Google's Acceptable Use Policies.

2. Description of Service This app is an internal tool designed to connect Airtable and Google Services via n8n to automate pharmacy point-of-contact (POC) notifications.

3. User Obligations Users must not use this tool for spamming or any unauthorized data extraction. Access is restricted to authorized personnel of Smart Esek.

4. Limitation of Liability Smart Esek is not liable for any service interruptions caused by third-party API providers (Google, Airtable, etc.).

5. Termination We reserve the right to terminate access to this internal tool at any time for security or operational reasons.
